

PRODUCT PICKS

DON'T BE BUGGED: The **COTMASTER SLEEP ENCLOSURE** by SCS Ltd. protects against mosquitoes and other insects. The net system boasts easy setup on a variety of sleeping surfaces such as cots, beds or sleeping bags. It is available in two options: white 210 mesh 50 denier netting and green 310 mesh 50 denier netting. When open, it is 80 inches long and 28 to 40 inches wide. Folded, it measures 24 by 4 inches. The Cotmaster enclosure system consists of the netting, two shock-corded rods, a set of four support straps, the base cloth, carry bag and instructions. It costs about \$65. For information, call (800) 749-8425 or visit www.cotmaster.com. To purchase, visit www.scs-mall.com.

SMALL BOAT MOTOR: Yamaha's new **F20** and **F15C** outboard motors are designed for tenders, inflatables and other small boats. Under the one-piece cowling, Yamaha has engineered a large-displacement, 2-cylinder 22.1 cubic inch four-stroke powerhead with a single overhead camshaft to maximize power while minimizing weight and size. The outboards feature offset cylinders for a more compact shape; plus, a large-volume air intake silencer and streamlined intake manifold for less noise. Both models are available in 15- and 20-inch shaft lengths. Depending on options, the F20 sells for about \$3,410 and the F15 for about \$3,030. For more features or options, visit www.yamahaoutboards.com or call (800) 889-2624.

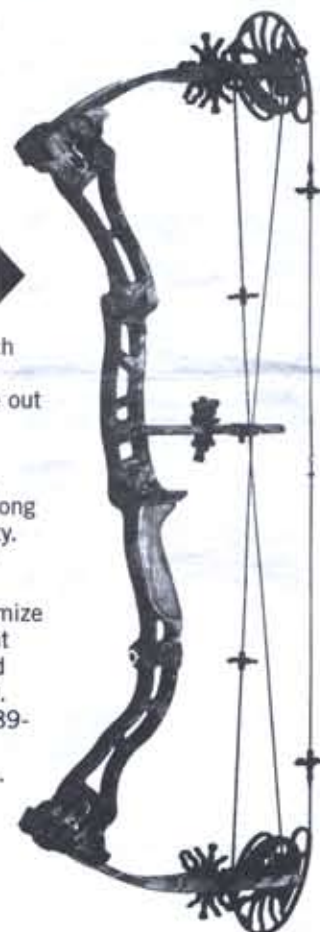

PRACTICAL JACKET: Wrangler ProGear's new hooded **Shooter Jacket** was designed for upland game hunters and competitive target shooters. The taupe jacket has padded blaze-orange recoil panels on both the left and right shoulders for left- or right-handed shooting. The jacket also features quilted nylon lining, polyester insulation, a zip and button-down design, a spread collar with fleece hood, plus more. It sells for about \$50. For dealers, visit www.wrangler.com or call (888) 784-8571.

PREMIUM BULLET PERFORMANCE: The **Fusion** bullet is high-tech centerfire rifle ammunition especially for deer. According to the company: Fusion technology creates a deer bullet of unimagined kinetic force by electrochemically joining pure copper to an extreme pressure-formed core. Applying the jacket to the core one molecule at a time eliminates separation to ensure mass integrity. The Fusion bullet is available in different calibers and ranges in cost from about \$16-\$20 for a box of 20 of the .243 95-grain bullets to about \$30-\$35 for 20 of the .338 225-grain bullets. For dealers, call (800) 322-2342 or visit www.federalpremium.com. For more information on the bullet, visit www.fusionammo.com.

A VERSATILE BOW: BowTech's new **Tribute Bow** promises stability, smoothness and versatile performance. The company attributes its Binary Cam System, which slaves the cams to each other so they never rotate out of tune, for being at the heart of the Tribute's performance. The bow is 31.5 inches long with a long riser that provides stability. The cams come with two draw-length modules, allowing archers to customize their shooting for different situations. The 4.1-pound Tribute costs about \$750. For dealers, call (888)-689-1289 or visit www.bowtecharchery.com.

BASS MADNESS

**BIGMOUTHS, BIG MONEY,
AND BIG DREAMS AT THE
BASSMASTER
CLASSIC**

KEN SCHULTZ

THE BOOK ON BASS: "Bass Madness: Bigmouths, Big Money, and Big Dreams at the Bassmaster Classic" (Wiley; \$24.95) takes a behind-the-scenes look at the national fishing competition. Award-winning author and fishing authority Ken Schultz focuses on the 2005 and 2006 Bassmaster Classics and shares insight on topics ranging from the professional anglers to the fans to the effect media and marketing has had on the sport. He also writes about the history and lore of the bass in his 320-page hardcover book. To purchase, check with local booksellers or visit www.wiley.com.

FIT FOR A PHAROAH:

Coleman's **Cloudcroft** mummy bags, with temperature ratings of 40, 20 and 0 degrees, feature goosedown insulation with 310 Tactel nylon cover and liner material. The sleeping bags have semi-sculpted hoods, draft tubes and baffle-weave construction for retaining warmth. The bottom is angled to allow for the foot's natural position during sleep. The orange-and-black bags are offered in 31 by 80 inches and 32 by 88 inches. They range in cost from about \$120 to \$215. For more information about Coleman Exponent products, visit www.coleman.com or call (800) 835-3278.

BETTER VIEWING: Cabela's has joined forces with Bushnell to produce the **CLR 1200 Laser Rangefinder**. The 9.6-ounce rangefinder delivers measurement readings from five yards to 1,200 yards on reflective objects (400 yards on deer-size game). Built-in rain and reflect modes enhance accuracy in harsh weather and when ranging distant objects through close-up ground clutter such as tall grass or brush. Available in black (about \$300) and Seclusion 3D Camo (about \$320). For information, visit www.cabelas.com.
